

Geometric Routing Network: Visual Architecture Guide

Conceptual diagrams explaining the geometric routing architecture.

Hyperbolic Routing Manifold

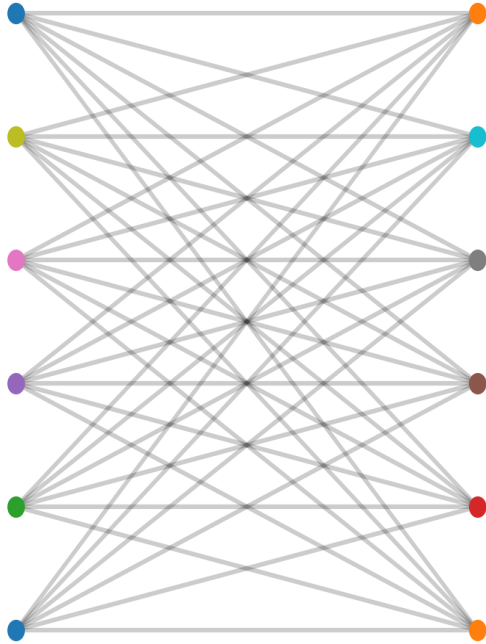

Hyperbolic Routing Manifold (Conceptual Poincaré Ball)

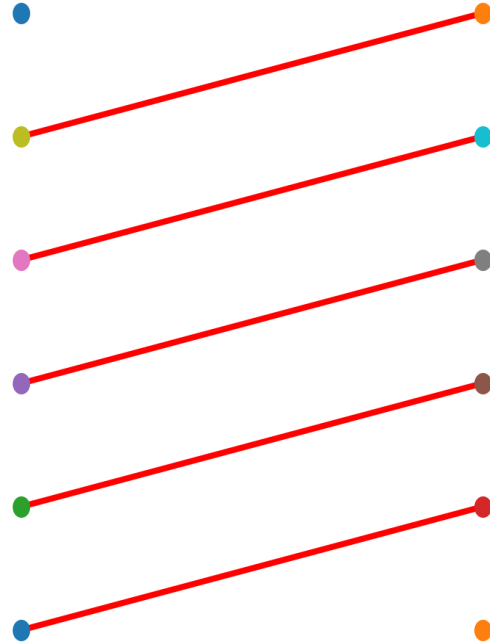

Routing space embedded in hyperbolic geometry enabling hierarchical routing.

Dense vs Sparse

Dense Transformer Attention

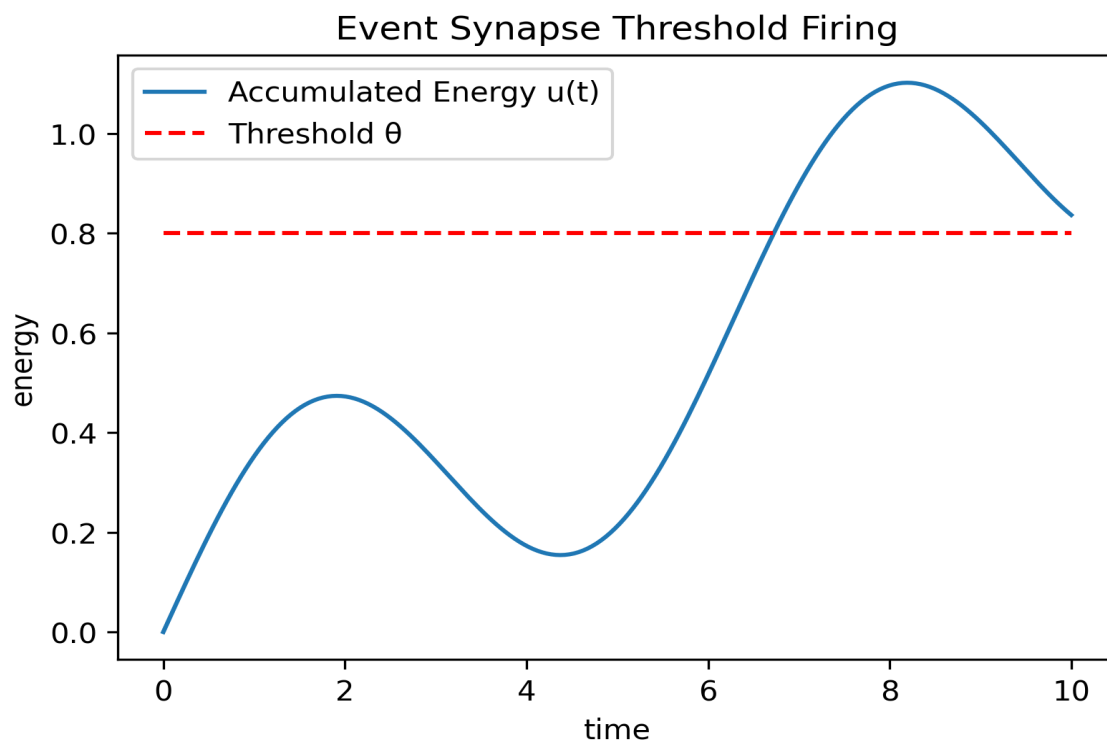

Sparse Geometric Routing

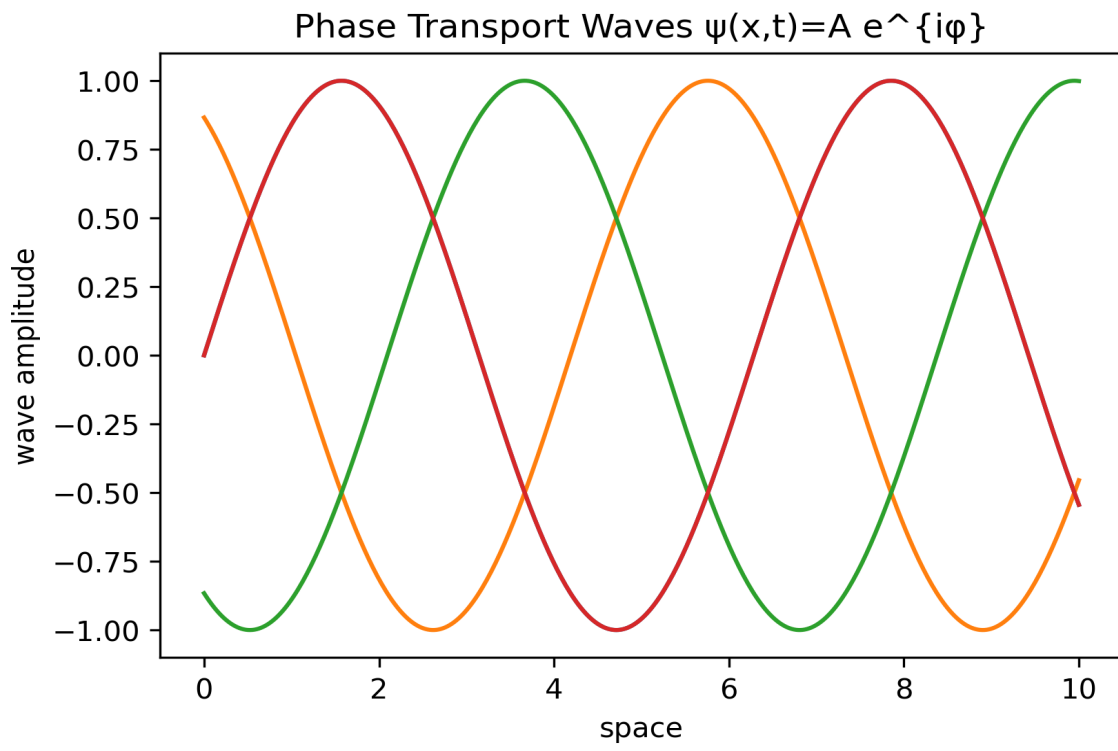

Comparison between transformer dense attention and geometric sparse routing.

Event Synapse

Energy accumulation triggers sparse firing events.

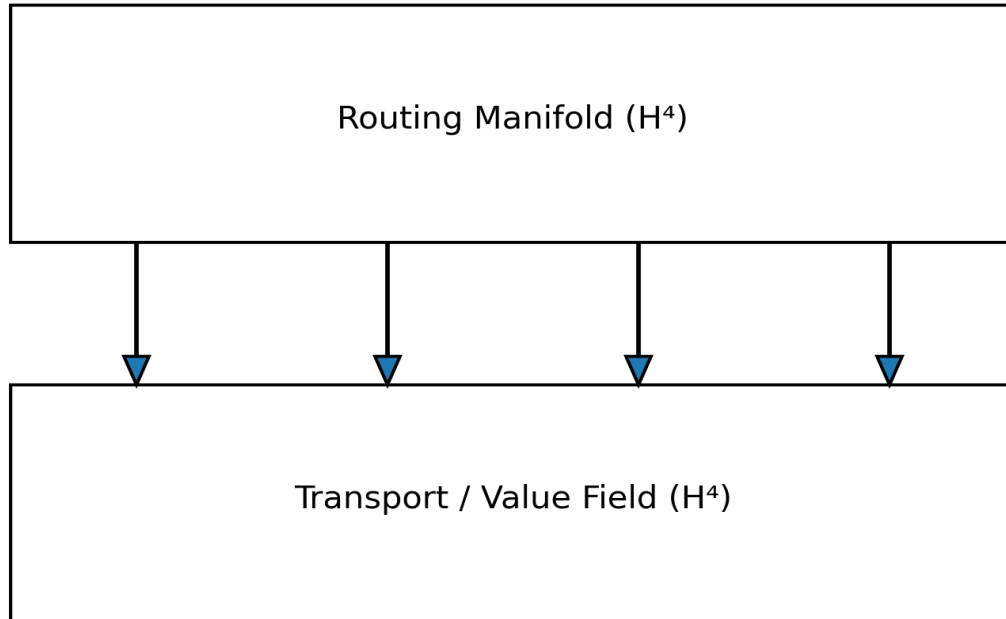

Phase Transport

Signals propagate as phase-encoded waves across geometry.

Dual Manifold

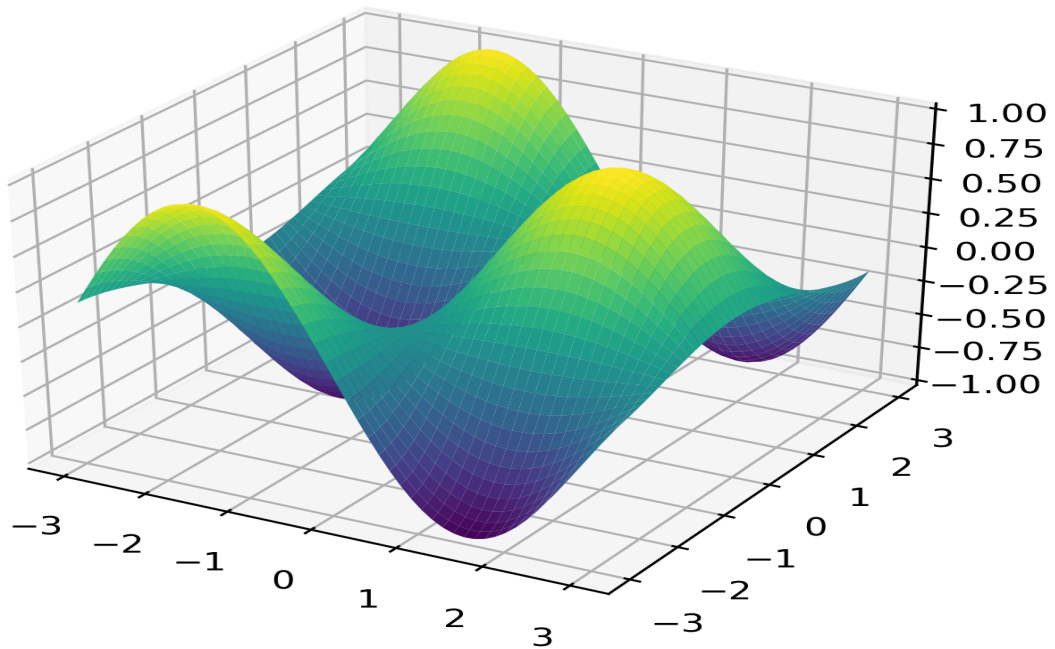

Dual Manifold Architecture

Routing manifold separated from value/transport field.

Spectral Modes

Emergent Spectral Modes

Wave propagation generates structured spectral patterns.
